

Strategic Risk Management

Presented by DR PATRICK MC CONNELL *BSc., MSc., D.B.A, Dip. (Mgmt. Cons.), C. Eng., CITP, FBCS, MAICD, GAICD*
 Macquarie University Applied Finance Centre

Course Synopsis

Recent crises in the global financial system have highlighted the importance of good risk management and firms that have been seen to manage risk have fared better than their competitors. Not only have corporate, securities, and industry regulators (such as ASIC, ASX and APRA) demanded that listed companies raise their game as regards risk management, rating agencies have announced that, in future, corporate ratings will be based on the quality of a firm's risk management 'culture'. But beyond mere compliance, superior risk management has become an imperative for boards and management seeking to build a sustainable business.

Course Content

- Risk Management - A business imperative (theory to practice)
- Regulation - ASX, Basel, APRA and Rating Agencies
- Lessons from Risk Management Failures - Strategic and Reputation
- Risk Management Frameworks - COSO, AS/NZS 4360, ISO 31000
- Risk Governance - Risk Culture, Appetite and Remuneration
- Risk Organisation - Risk Committee, CRO and Conflicts of Interest
- Strategic Risk Management - Strategy, Scenario Analysis

Designed for

This course will be of interest to those who are faced with developing and implementing risk management practices within large/medium organisations, especially those firms subject to intense regulation, such as banks and insurance companies.

Presenter

Patrick Mc Connell *BSc., MSc., D.B.A, Dip. (Mgmt. Cons.), C. Eng., CITP, FBCS, MAICD, GAICD* - Visiting Fellow
 Dr. McConnell is a partner with Risk Trading Technology, a small consultancy specialising in Risk Management and Information Technology. In over 30 years in banking, insurance and commerce, Patrick has operated as a senior manager and consultant in investment banks and large corporations in the US, Europe and Australia.
